# ENCORE SAMPLER

Sampling VOCs in soil has never been easier.

## 5 Gram Disposable En Core® Sampler

Delivers approximately 5 grams of soil. Use in accordance with SW 846 Method 5035.

Consult your regulatory agency for detection limit requirements to help determine which size En Core Sampler to use.

Works with Standard T-Handle.

*(As consumable it comes in a box with 50 samplers).*

## 25 Gram Disposable En Core® Sampler

Delivers approximately 25 grams of soil. Use in accordance with SW 846 Method 5035.

Consult your regulatory agency for detection limit requirements to help determine which size En Core Sampler to use.

Works with Standard T-Handle.

*(As consumable it comes in a box with 50 samplers).*

## Disposable En Core Sampler Starter Kit

Kit contains 1 T-Handle, 12 En Core Samplers, 1 Demo Sampler,

Starter kit 5 grams En Core Samplers (EN05GCS)
Starter kit 25 grams En Core Samplers (EN25GCS)

## Standard En Core® T-Handle

Attach either a 5 gram or 25 gram En Core disposable sampler to this Standard T-Handle and push the sampler into the soil for a measured soil sample.

T-Handle measures ~4.5" long.

T-Handle extensions are available. Call for details.

## En Core® Extrusion Tool

When either a 5 gram or 25 gram disposable En Core Sampler arrives at the laboratory, attach it to the Extrusion Tool, engage the plunger, and push the sample into an appropriate vial.
